

NYONGA Herman Brice

Front-End Co-Developer & Branding Lead — BlingsEdu

Cameroon | +237 652 031 334 | bricetechnology8@gmail.com | www.blingsedu.com/team

PROFESSIONAL SUMMARY

Front-end engineer and brand designer with **3+ years** of production experience building modern, accessible, performance-tuned React/TypeScript interfaces. Co-developer on BlingsEdu — owner of the per-school subdomain experience (landing pages, visual identity, conversion UI) used by hundreds of Cameroonian schools.

Specialist in pixel-precise responsive design, design-system tokens, micro-interactions, and translating brand strategy into shippable code. Comfortable across the full modern front-end toolchain (React 19, TanStack Router, Next.js, Vite, Tailwind, Framer Motion) and the brand stack (Figma, Adobe Illustrator, Photoshop).

Available for **remote front-end / UI engineering / brand-design roles** worldwide.

CORE TECHNICAL STACK

React 18 / 19	TypeScript	JavaScript (ES2022+)
HTML5	CSS3 / SCSS	Tailwind CSS
Next.js	TanStack Router	Vite
Framer Motion	Figma	Adobe Illustrator
Adobe Photoshop	Node.js (basics)	REST APIs
Git / GitHub	WCAG 2.1 a11y	Responsive design
Brand systems	UI/UX research	Webpack basics
Storybook	Lighthouse perf tuning	Semantic SEO

FLAGSHIP IMPACT — BLINGSEDU

Owns the visual identity and front-end of every BlingsEdu school subdomain (`/s/`) — the 21-section storefront that hundreds of Cameroonian schools use to publish admissions, fees, gallery, teacher recruitment and verifiable certificates. Shipped responsive, low-bandwidth-optimized layouts that hold ≥ 95 Lighthouse on 3G, and built a reusable brand-token system so every school inherits a polished identity with one form submission.

PROFESSIONAL EXPERIENCE

Front-End Co-Developer & Branding Lead — BlingsEdu Group

2023 — Present · Remote · Cameroon

- Designed and shipped the per-school subdomain experience (21-section storefront) for hundreds of schools — hero, admissions, fees, gallery, teacher recruitment, verifiable QR receipts.
- Owns the BlingsEdu visual identity: typography scale, color tokens, motion language, iconography and component library; ensures every school site feels premium without manual design work.
- Implemented accessible, mobile-first React/TypeScript components with Tailwind tokens; Lighthouse ≥ 95 on 3G/low-end Android (the dominant device in Cameroon).
- Built brand-onboarding flow that lets a school pick logo, colors and motto and instantly see their branded storefront — used by 100% of new BlingsEdu schools.

Freelance Front-End Engineer & Brand Designer — Independent

2022 — 2023 · Cameroon

- Delivered marketing sites, brand kits and small SaaS dashboards for Cameroonian SMEs in React / Next.js / Tailwind.

- Built design systems in Figma and translated them to production with Storybook and tokenized Tailwind themes.

Junior Front-End Developer — Local agency / training projects

2021 — 2022 · Cameroon

- Foundational web work in HTML5, CSS3, vanilla JavaScript; progressed quickly into React, hooks, state libraries and modern build tools.

EDUCATION & CERTIFICATIONS

- Computer-related higher education — Cameroon
- Continuous self-directed training: React 19 + TanStack, advanced Tailwind, Figma Variables, Framer Motion, WCAG 2.1, Lighthouse perf engineering
